PROFESSIONAL SUMMARY

MCA student and Python full-stack developer focused on AI-driven applications. Built WellSync, EduPredict, and TrainexAI using Python, Flask, REST APIs, and MongoDB, and led teams in 3 national-level hackathons. Seeking an AI / full-stack developer role in an agile engineering team.

EDUCATION

KL University — Vijayawada, India
MCA — 2026 – Till Date

KL University — Vijayawada, India
BCA — CGPA: 9.38/10 — 2023 – 2026

Sri Chaitanya Junior College — Vizianagaram, India
Intermediate MPC — 57% — 2020 – 2022

Bhashyam Public School — Vizianagaram, India
SSC Board AP — GPA: 10/10 — 2020

SKILLS

Languages: Python, JavaScript, SQL

Frontend: HTML5, CSS3, Tailwind CSS, Responsive Web Design

Backend: Flask

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Postman, AWS Basics, CI/CD, Agile

Soft Skills: Problem-Solving, Team Leadership, Collaboration, Adaptability, Time Management

ACHIEVEMENTS

Python Essentials 1 – Cisco Networking Academy & OpenEDG Python Institute — June 2025

- Gained foundational skills in Python programming including syntax, problem-solving, debugging, and understanding the software development lifecycle.

Code4Change 2025 | KL University — April 2025

- Led a 4-member team as Team Leader, designed and delivered a full-stack web solution for a real-world social-impact problem within a 24-hour sprint using HTML, CSS, JavaScript, and MySQL.

Web Hackathon | PRAVAAH'25, IIT Bhubaneswar — April 2025

- Led the team as Team Leader in a national-level hackathon at IIT Bhubaneswar, competing against 100+ teams from premier institutions across India and presenting a working web-based solution.

AI Vibe Coding Hackathon | SRM University Ramapuram, Chennai — 2025

- Led the team as Team Leader, prototyped and deployed an AI-assisted web application within the competition timeline using Python, Flask, and REST APIs.

INTERNSHIP

Internship & Job Preparation Training, APSSDC — Remote
May – July 2025

- Completed a 2-month structured training program under the Andhra Pradesh State Skill Development Corporation.

- Implemented hands-on labs covering cloud infrastructure deployment, CI/CD pipelines, and DevOps workflows on AWS services including EC2, S3, and IAM.
- Strengthened full-stack integration skills by building and testing RESTful API-connected web modules.

PROJECTS

WellSync – Healthcare Web Application 2025

- Designed and developed a full-stack healthcare platform enabling doctors to manage prescriptions and diet plans for 50+ patient records, reducing manual paperwork by 60%.
- Engineered a Python Flask backend with RESTful APIs, MongoDB database, and a responsive JavaScript frontend; integrated AI-powered medication reminders improving adherence tracking efficiency.

EduPredict – Student Dropout Prediction 2025

- Built and deployed a machine learning web application achieving 85%+ prediction accuracy in identifying at-risk students using logistic regression on academic and behavioural datasets.
- Developed end-to-end with Python, Flask, and SQLite; enabled early intervention for institutions reducing potential dropout risk identification time by 70%.

BigByte – E-Commerce Web Application 2025

- Architected and delivered a fully responsive e-commerce platform supporting product browsing, cart management, and secure checkout for 100+ product listings.
- Implemented dynamic UI with HTML5, CSS3, and JavaScript integrated with a MySQL relational database, achieving sub-2-second page load performance.
